# Copy-cat build

Two players. Two walls. Same pieces. Same build?

Put a book between you. You each have the same set of pieces. One builds and says every step out loud. The other copies.

## You need

- Two matching sets of pieces (see the cards)
- A big book or a box to stand between you
- 2 players

## How to play

1. Take a card. Each player collects exactly the pieces on the card.
2. Put the book up as a wall.
3. Player A builds and says each step: 'I put a red long brick flat. I put a blue small one on the left end.'
4. Player B builds the same, only from the words. You may ask questions.
5. Take the wall away. Compare.

## Scoring

- 1 point for each piece in the same place and colour. Swap roles. Most points wins.

## Make it harder or easier

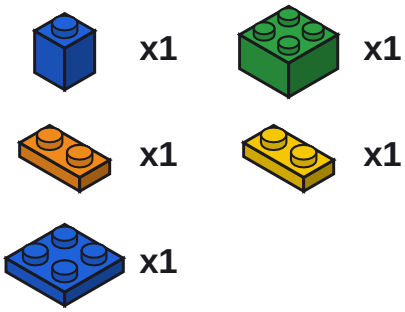

- Easier: players may point at their pieces on the card. Harder: no names of shapes.

## Family mode

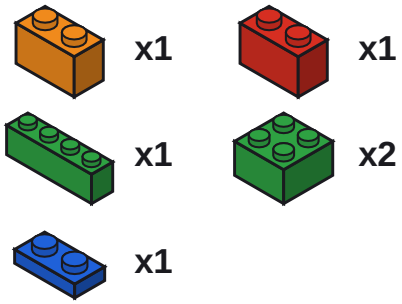

- A grown-up and a child on each side of the wall. Swap seats after each card.

**Small parts. Choking hazard. Not for children under 3.**
