Build what I describe

One person describes. One person builds.

The describer sees a picture. The builder cannot. Use words only.

You need

- The picture cards
- A bin of loose bricks
- 2 or more players

How to play

1. Sit back to back. The describer takes a card. The builder has the bricks.
2. The describer says how to build it, one piece at a time. No pointing and no peeking.
3. The builder can ask questions: 'What colour? How long? Which way?'
4. Show the card. Compare. Laugh.

Scoring

- 1 point for every piece in the right place and colour.

Make it harder or easier

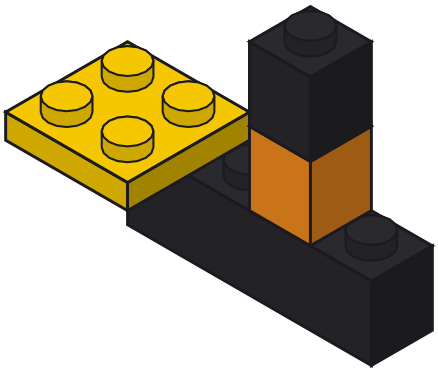

- Easier: the describer may say the name of the shape. Harder: no shape names, only 'long' and 'square' and 'flat'.

Family mode

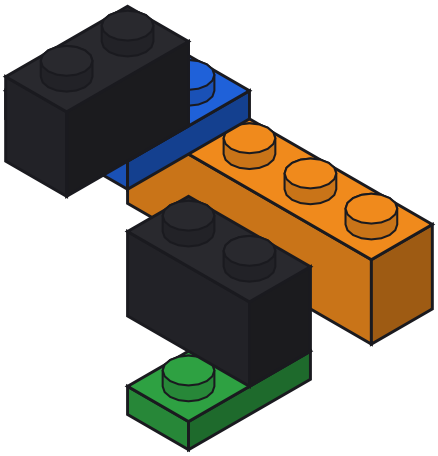

- Swap after every card. Grown-ups describe, children build, then swap.

Small parts. Choking hazard. Not for children under 3.
