Dice build challenge

Roll two dice. Find the piece. Add it to your tower.

Two paper dice tell you which brick to grab. One shows a shape, one shows a colour. Everyone builds their own tower.

You need

- The dice sheet, scissors and tape
- A bin of loose bricks tipped on the floor
- 2 to 4 players
- Paper and a pencil for scores

How to play

1. Cut out both dice. Fold on the lines. Tape the edges.
2. Take turns. Roll both dice together.
3. Find that shape in that colour in the bin. No colour in the bin? Take any colour and say sorry to the dice.
4. Press it onto your tower. It must sit on a stud. Do not knock the tower down.
5. After 8 rolls each, stop. Count your points.

Scoring

- 1 point for every piece you add.
- 2 bonus points if your tower is taller than every other tower.
- Knock your tower down? Lose 1 point and keep going.

Make it harder or easier

- Easier: one die only. Take any colour.
- Harder: you may only add a piece on top of the last one you added.

Family mode

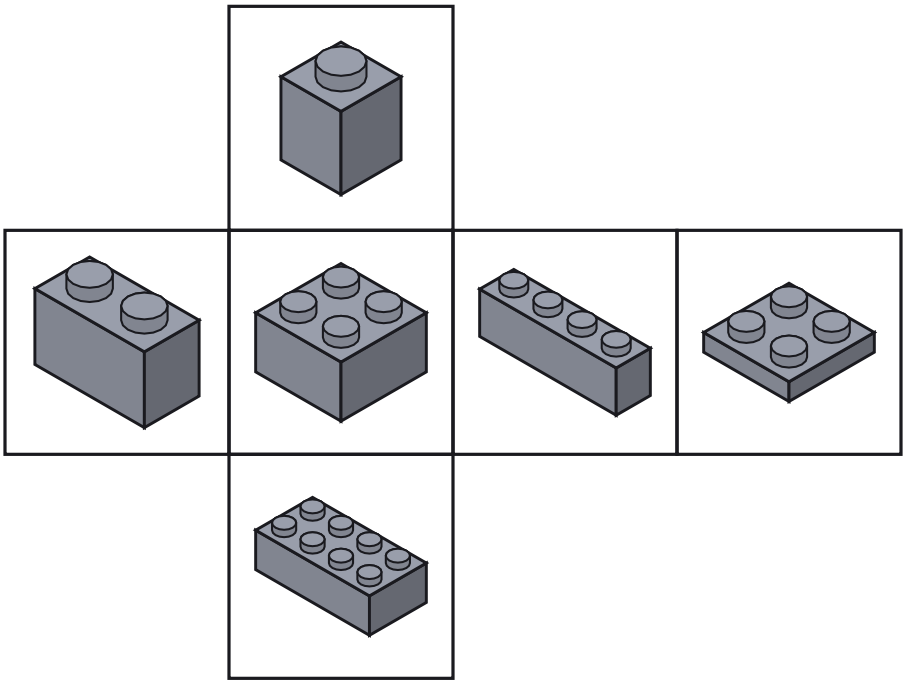

- A grown-up and a child build one tower together and roll for it. Swap who holds the dice each round.

Small parts. Choking hazard. Not for children under 3.

Cut out the two dice

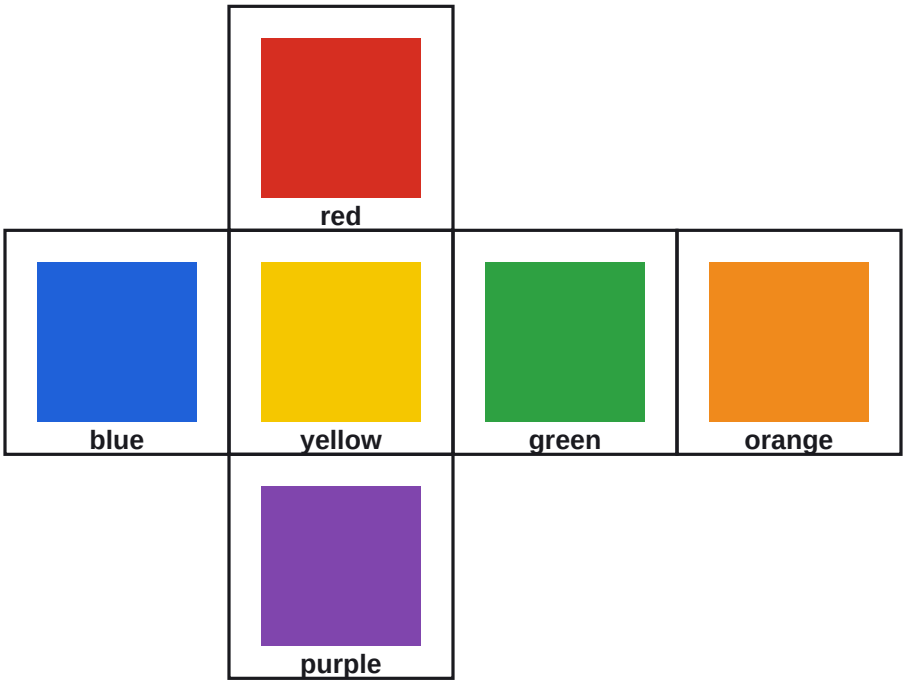

Cut around the outside. Fold along the lines. Tape the flaps.

Shape die

Fold every line. Tape the sides to make a cube.

Colour die

Fold every line. Tape the sides to make a cube.

Small parts. Choking hazard. Not for children under 3.

Dice build score sheet

One line for each player. Write a point for each piece.

	R1	R2	R3	R4	R5	R6	R7	R8
Player 1: _____								
Player 2: _____								
Player 3: _____								
Player 4: _____								

Totals, bonus and the winner

Player 1 total: _____ Tallest bonus: ____ Final: _____

Player 2 total: _____ Tallest bonus: ____ Final: _____

Player 3 total: _____ Tallest bonus: ____ Final: _____

Player 4 total: _____ Tallest bonus: ____ Final: _____

Winner: _____

Small parts. Choking hazard. Not for children under 3.
