Pass the build

Add one piece. Pass it on. See what you make.

One build goes round the room. Everyone adds one piece each turn.

You need

- Prompt cards, face down
- A bin of loose bricks
- 3 or more players

How to play

1. Draw a prompt card. Everyone knows what the build will be about.
2. The first player puts down one piece. Pass it to the next player.
3. Each player adds exactly one piece, on a stud. Go round 3 times.
4. Name it. Show it off.

Scoring

- No points. Everyone wins when it looks great.

Make it harder or easier

- Easier: add two pieces. Harder: you may not use the same colour as the last piece.

Family mode

- Grown-ups and children take turns. Grown-ups try not to make it too neat.

Small parts. Choking hazard. Not for children under 3.

Pass the build

a space station

Pass the build

an animal that does not exist

Pass the build

a house for a giant

Pass the build

a party

Pass the build

a rainy day
