Speed build

Pick a card. Build it before the timer ends.

Everyone builds the same card at the same time. Then you vote on whose build looks most like the word.

You need

- The speed cards, cut out and shuffled face down
- A bin of loose bricks
- A timer (a phone or a kitchen timer)
- 2 or more players

How to play

1. Pour the bricks in a pile between you. Everyone grabs the same number of pieces to start. Eight is a good number.
2. Turn over one card so everyone can see it. Start the timer. 60 seconds is a good start.
3. Everyone builds that thing from their own pieces. Stop when the timer rings. Hands off!
4. Show your builds. Everyone points at the one that looks most like the word. You cannot vote for your own.
5. The build with the most votes wins the card. Keep the card.

Scoring

- 1 point for every card you win.
- First to 5 cards wins. A tie? Build one more card.

Make it harder or easier

- Easier: give the timer a longer time.
- Harder: use only 6 pieces, or only one colour.

Family mode

- Grown-ups play too. Everyone builds from a short pile, so grown-ups and children have the same chance.

Small parts. Choking hazard. Not for children under 3.
