Build a story

Pick 4 cards. Build the scene. Tell the story.

Each deck gives one part of a story. Build it, then tell it out loud.

You need

- The story cards in 4 piles: Who, Where, Trouble, Ending
- A bin of loose bricks
- Paper for the story page

How to play

1. Pick one card from each pile without looking. Lay them in a row.
2. Build the Who and the Where from bricks.
3. Tell the story from the cards. Use your builds as the people and the places.
4. Change the story if you like. The cards are only a start.

Scoring

- No points. The best story is the one that makes everyone laugh.

Make it harder or easier

- Easier: two cards only. Harder: add a second Who.

Family mode

- Take turns telling one sentence each. Grown-ups join in.
